Pressbrake tools are an expensive part of any sheetmetal manufacturing operation. Storage of pressbrake tools is often overlooked, resulting in damage or mishandling of these expensive components. The Tool Vault vertical drawer tool cabinet provides secure storage of pressbrake tools and maintains trouble free accessibility. Protect tools from damage or mishandling using the Tool Vault's innovative purpose built tool supports designed to accommodate Amada and Trumpf style tools. The Tool Vault is a practical and valuable addition to any sheetmetal manufacturing operation.
