

INDUSTRIAL WORKBENCH BENCH TOP OPTIONS

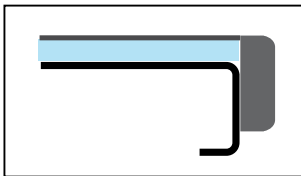

All benches are supplied standard with 3mm mild steel bench top excluding hardwood.

For Formica, Hardboard, Duraloid & Antistatic bench tops please add 40mm to the overall dimensions of width and 40mm to the dimensions of depth of the workbench as these tops are produced with timber edging which sit over the existing metal top, therefore increasing its size.

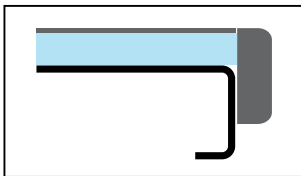

FORMICA

White Formica/Chipboard cover. 18mm chipboard with laminate. All edges have solid hardwood trim.

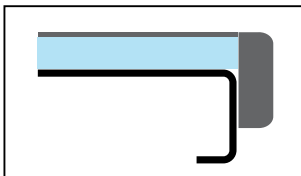

HARDBOARD ON STEEL

3mm matt black steel top with replaceable masonite cover

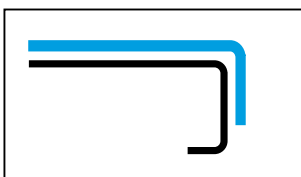

DURALOID

Chipboard (18mm) with Duraloid (2mm) bonded to top. All edges have solid hardwood trim. Duraloid is a specially engineered high grade surface which is resistant to scuffing and withstands molten solder

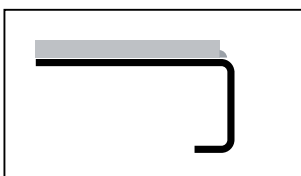

ANTISTATIC

Chipboard (18mm) with high grade anti-static work surface. All edges have solid hardwood trim

STAINLESS STEEL

An additional 1.2mm satin stainless steel top - Load capacity 800kg

HEAVY DUTY STEEL

An additional 5mm heavy duty steel top, reinforced with steel channel. Matt black finish.

HARDWOOD

35mm polished hardwood. Laminated construction. Top and bottom edges sealed and rounded
